

VAMPIRE HIGH

A Social Deduction Game for 4–10 Players

OBJECTIVE

High School: Identify and eliminate the Vampire before they take over.

Vampire: Survive until only 1 other player remains alive.

GAME FLOW

- Discussion (3 min):** Players discuss and debate who might be the Vampire. Use abilities during this phase.
- Voting (90 sec):** All eligible players vote secretly to eliminate someone. Votes must be unanimous—if not, the Vampire's target dies instead.
- Round End:** Results are revealed. If the Vampire survives, they kill one player.
- Repeat:** Continue until someone wins.

CORE RULES

- ✓ **YOU MUST ROLEPLAY YOUR CHARACTER:** Stay in character throughout the game. This is a roleplay game!
- ✓ **NEVER STATE YOUR ROLE:** Do not reveal your role directly. Use roleplay, deception, and strategy instead.
- ✓ **Unanimous Voting:** ALL non-Vampire eligible voters must agree on the same person to eliminate them. Otherwise, the Vampire's target dies.
- ✓ **One Vampire:** Exactly one player is the Vampire among 10 roles.
- ✓ **Dead Players:** Eliminated players cannot vote or use abilities.
